Hands on training program on fundamental laboratory practices in pharmaceutical industry at ARIBAS

Dt. 03/01/2019

A hands on training program on fundamental laboratory practices in pharmaceutical industry was organized on 3rd January-2019 by the ARIBAS institute-new vallabhvidyanagar, in which students were guide about the different pharmaceutical techniques which are useful at academic as well as in industry. Total 33 students of T.Y. B.sc. were enrolled for the training program. The entire training program was very interesting for the students.
